

**FOGO SAGRADO (Sacred Fire Ritual)
has its origins in the ancient shamanic
traditions of the Amazonian Indians.**

It was the life-long mission of Aloysio Delgado Nascimento to research this work, to develop it and to make it accessible for the Western world.

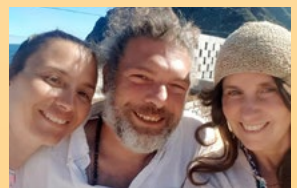

Fogo Sagrado is the future of modern psychotherapy – it is a healing therapeutic practice which recognises the vital role of a more holistic approach to human development, one which addresses not only the physical and psychological aspects of our existence but also the spiritual dimension.

This approach provides practitioners and participants with a potent and powerful tool to get to the very root of blockages in our energy-field. Often after just one session, the underlying issues which lie at the heart of our inner conflicts and disease can be revealed and resolved.

This training has been developed for therapists, yoga teachers, and all those whose work involves healing and human transformation.

TRAINING MODULES:

- *Aura reading/Developing Intuition*
- *Working with Light entities*
- *Kundalini Yoga*
- *Clearing alien/toxic energies*
- *Working with spiritual trauma*
- *Regression work*
- *Family systems work*
- *Remote healing/energy transfer*
- *Supervised treatments for invited guests (of your choice)*
- *Initiation ritual marking the completion of the training*
- *Personal development and... lots of fun!*

The training is held in the sacred dragon country of Elisa, on the island of Tenerife. This part of the world has a highly transformative energy and is very supportive for our process. It is situated directly on the coast and is the entry point to an ecological nature reserve which contains traces of an ancient local culture.

**Part 1:
09.11.19 - 16.11.19**

**Part 2:
08.03.20 - 14.03.20**
